

Step-By-Step Guide to Branding Your Keyword Engineering E-Book

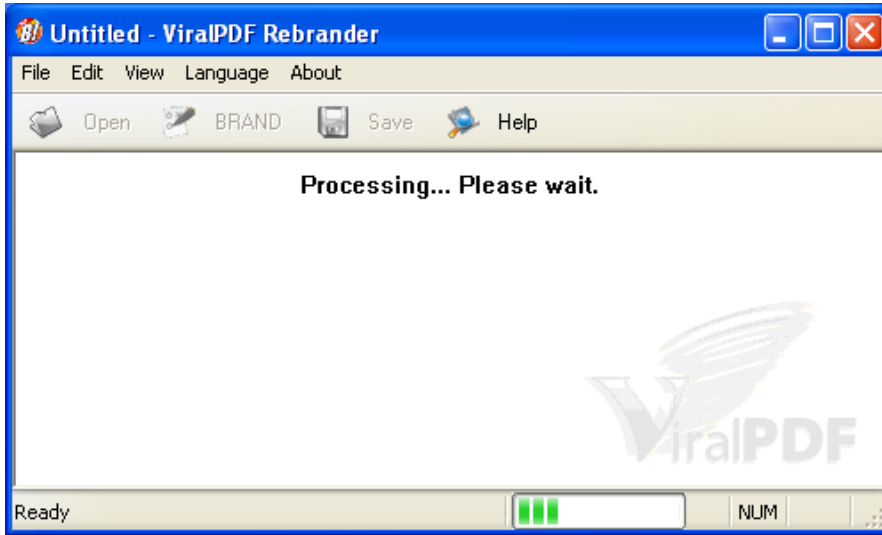

Step 1: Double-click on the ViralPDF CE Rebrander icon (as seen below). This is one of the files you would have received in your Keyword Engineering Rebranding package.

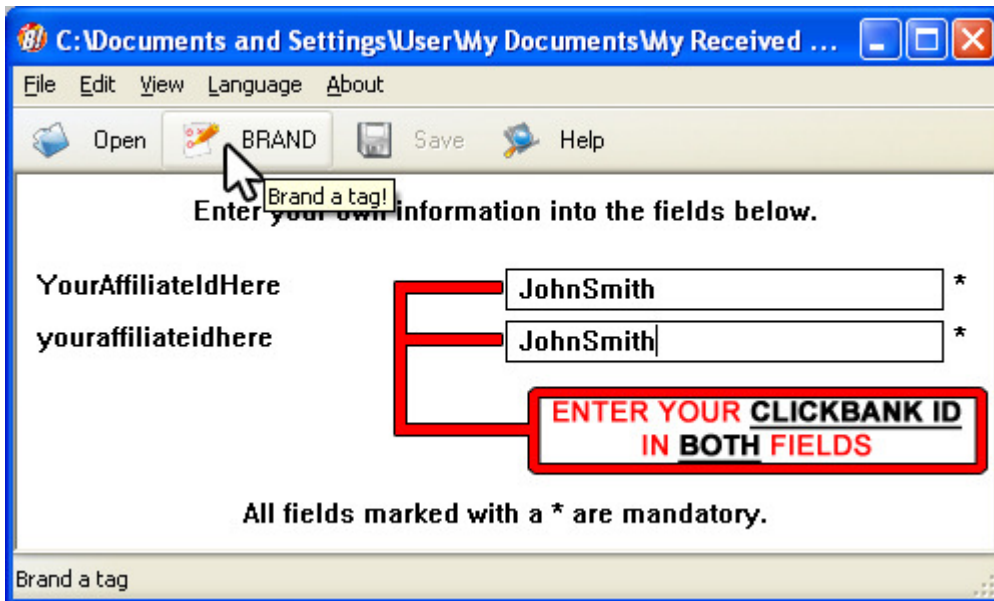

Step 2: Open the file “KeywordEngineering_Signed”. This is the other file which you had received together with ViralPDF CE Rebrander.

Loading of the file should proceed automatically and take about less than a minute to complete.

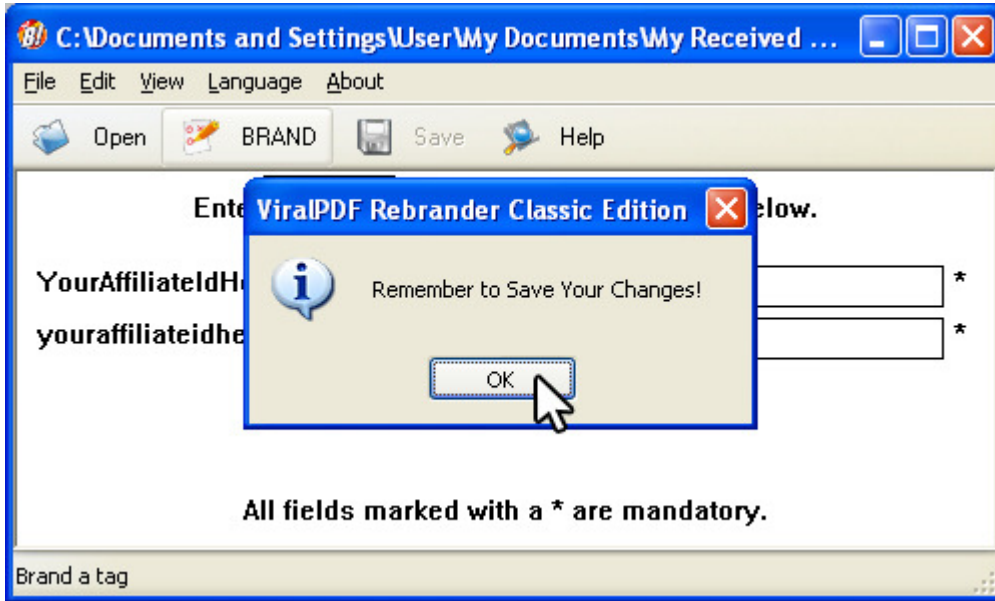

Step 3: Thereafter, input your Affiliate ID. There should be no spacing between your names as the program would not be able to read spaces in between words.

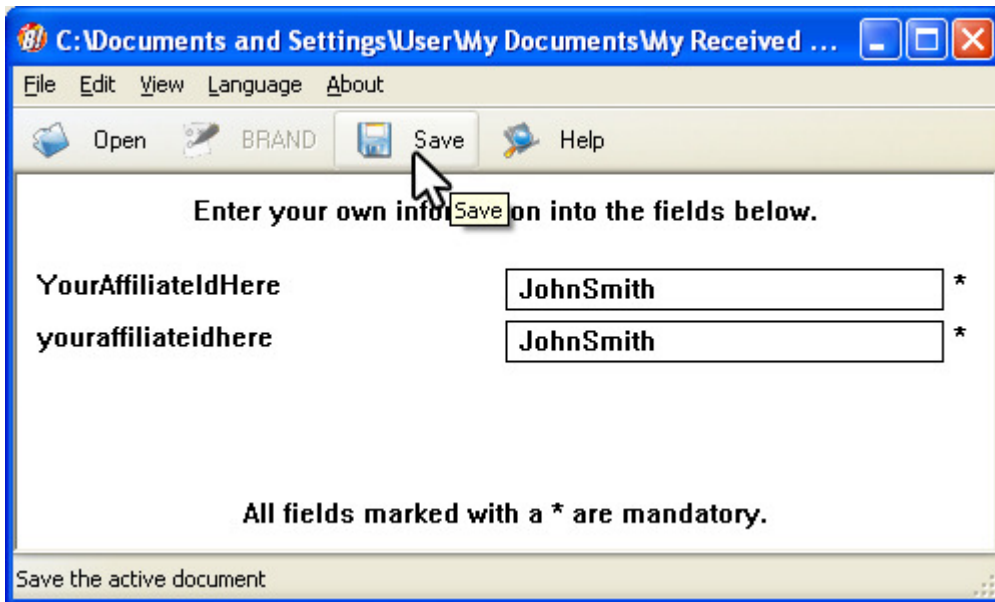

Step 4: Select the brand button or simply press enter when you are done. Now your Affiliate ID has been embedded into the links of your PDF article.

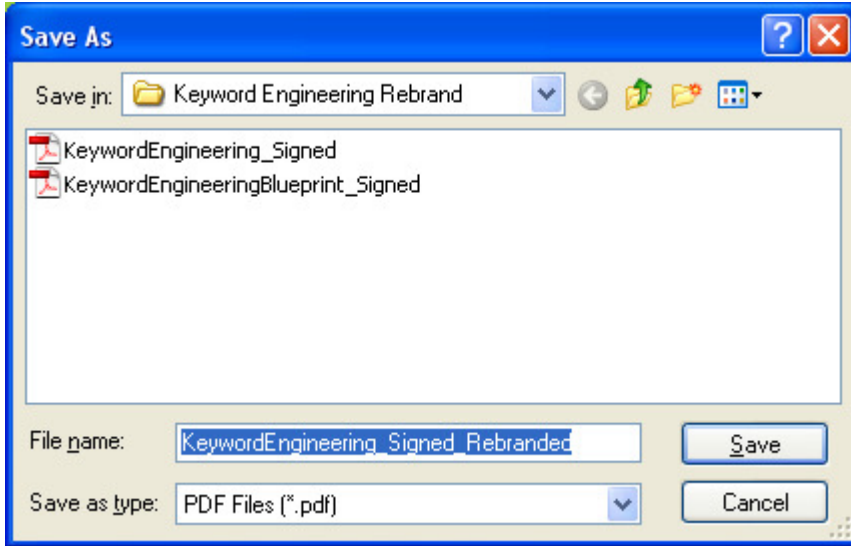

Step 5: The program will now prompt you to save your signed PDF. Click OK.

Step 6: After clicking OK, click Save.

Step 7: Now simply save your rebranded PDF.

Congratulations! You have just rebranded your Keyword Engineering e-book. Simply repeat Steps 1 through 7 if you wish to rebrand your Keyword Engineering Blueprint, using the appropriate PDF.
